टाटा सामाजिक विज्ञान संस्थान Tata Institute of Social Sciences

TISS/LIB/2015

29th April 2015

TO WHOM SO EVER IT MAY CONCERN

This is to certify that Tata Institute of Social Science is subscribing to India Business Insight since 2009. India Business Insight is a cumulative business intelligence database which indexes original business articles from 167 dailies and fortnightlies with focus on Indian Business.

We find India Business Insight is consulted by our students, faculty and research scholars as they find it quite useful in their class room studies, preparing their project report and case studies. Most of the reference queries related to indian business are answered using IBID.

This database is very cost effective and fills the critical gap of a valuable source on indian business information.

Regards,

Dr.Satish Kanam Acting Librarian
